

SATO143 "FLEX-INSTALL" PAN W/ BIRD DOOR

Model Numbers:

- SATO143 (shown)
- SATO143Q

Features/Benefits:

- Innovative pan design which allows for easy retrofit into existing latrines with concrete, wood or traditional flooring
 - Requires smaller cutout in floor compared to "Rural" or "Orissa" style SATO pans
- Self-closing trap door design allows for a small amount of water to create a seal between waste and human environment
 - Minimizes odor and harmful gases - door remains in closed position unless in use or when flushing
 - Prevents insects from entering and escaping pits preventing spread of diseases
 - Water saving
 - Water seal depth: up to 7mm
- Integrated plastic counterweight for areas where other counterweight materials (e.g. cement or rubber) are not easily accessible
- Closed aperture ensures sense of safety, especially for children
- Integrated footrests for added comfort
- Knockout holes around perimeter allow for pan to be nailed down, if desired
- Quiet-close feature to minimize sound from impact of hard plastic surfaces (SATO143Q)
